THIS CARD ADMITS YOU AND ONE OTHER GUEST

Dear Respected Leader,

We extend to you a heartfelt invitation to the exclusive screening of *Somewhere Else*— an inspirational film created in the heart of Central Valley, California, now standing a chance for global release in theaters and on Netflix.

Somewhere Else is a memorial in honor of the countless victims of school shootings, many of whom were young people left isolated, bullied, or rejected. Through this story, we ask: what if we chose peace instead of violence? What if we listened, noticed, and included before it was too late?

When our society is bruised by violence, our youth feel unseen, and the silence surrounding bullying becomes unbearable, *Somewhere Else* offers something rare: hope. Hope for love. Hope for justice. Hope for acceptance. Hope that every person — especially those with disabilities — is seen, valued, and treated with equal dignity.

You are a leader. A protector. A voice of influence. And your presence at this exclusive screening would give this film a chance to be seen globally. It is not only a chance to view a film — it is a chance to be part of a turning point.

Thank you.
